# PREFACE

*Editor in Chief*

With gratitude to God for His grace, the *Arsitektura: Jurnal Ilmiah Arsitektur dan Lingkungan Binaan*, Volume 24, Issue 1, April 2026, has now been published.

*Arsitektura* : Jurnal Ilmiah Arsitektur dan Lingkungan Binaan contains research articles in the field of architecture which includes research related to architectural engineering and science, social humanities, architectural design research, architectural education research and sustainable development focusing on the field of architecture. Over time, in 2022, *Architecture* developed until finally being internationally accredited at the Directory of Open Access Journal (DOAJ), precisely on April 26, 2022. Based on the Decree of the Ministry of Research, Technology and Higher Education of the Republic of Indonesia Number: 79/E/KPT/2023 regarding the results of the accreditation of scientific journals for the period of 1 of 2023 states that *Arsitektura* is an accredited national journal ranked 3 (Sinta 3) valid for 5 (five) years starting from Volume 20 Issue 2 of 2022 to Volume 25 Issue 1 of 2027.

In this edition, a collection of articles presents insights into current issues in architecture. The studies cover topics such as sustainable design, green building implementation, riverside settlements, vernacular spatial transformation, thermal comfort, natural ventilation and noise control, structural performance, UAV-based mapping, urban morphology, and climate-related research. Together, these articles reflect the breadth and depth of architectural inquiry, ranging from technical analyses to cultural and conceptual explorations.

We extend our deepest appreciation to all leaders of the Study Program of Architecture and the Faculty of Engineering, Universitas Sebelas Maret, for their ongoing support in managing this journal. Sincere thanks also go to our Editorial Board, reviewers, authors, and all individuals who have contributed their time and expertise to the successful publication of this issue. We hope that this edition will enrich scholarly discourse, inspire further research, and contribute to the development of architectural knowledge in Indonesia and beyond.
