# PREFACE

*Editor in Chief*

Praise be to the presence of God for His blessing and guidance, *Arsitektura : Jurnal Ilmiah Arsitektur dan Lingkungan Binaan*, Study Program of Architecture Universitas Sebelas Maret Surakarta Indonesia, Volume 20 Issue 2 October 2022 can be published according to the planned schedule.

*Arsitektura : Jurnal Ilmiah Arsitektur dan Lingkungan Binaan* contains research articles in the field of architecture which includes research related to architectural engineering and science, social humanities, architectural design research, architectural education research and sustainable development focusing on the field of architecture. Over time, in 2022, *Architecture* developed until finally being internationally accredited at the Directory of Open Access Journal (DOAJ), precisely on April 26, 2022. Based on the Decree of the Ministry of Research, Technology and Higher Education of the Republic of Indonesia Number: 10/E/KPT/2019 regarding the results of the accreditation of scientific journals for the period of 2 of 2019 states that *Arsitektura* is an accredited national journal ranked 3 (Sinta 3) valid for 5 (five) years starting from Volume 16 Issue 2 of 2018 to Volume 21 Issue 1 of 2023.

*Arsitektura* Volume 20 Issue 2 October 2022, consisting of 17 (seventeen) titles of research articles in the field of architecture. The articles of this edition are written by several authors from universities in Indonesia, also from Portugal and the United Kingdom. Published articles have themes according to the focus and scope of architecture. The articles are the result of research covering tourism development, cultural influences in the architecture, building science, architecture response to the covid-19 pandemic, structure and building engineering, presented very interestingly with various novelties obtained from research findings.

Finally, high appreciation and gratitude for the support from all leaders of the Study Program of Architecture and Faculty of Engineering Universitas Sebelas Maret in managing this journal. Also thank and give appreciation to the Reviewers, the Editorial Board, authors, colleagues, and all those who have supported and contributed.

## AUTHOR GUIDELINES

**Manuscript:** Manuscript is written in standard Indonesian or English, typed 1 space with Times New Roman 11 font with a total of 10 pages or more (3000-5000 words), A4 size paper (including completeness). Manuscripts in MS Word files with a two-column layout to speed up processing and eliminate errors. Please prepare the manuscript and declaration form then submit online in web <https://jurnal.uns.ac.id/Arsitektura>. Material and Structure: The research paper is written systematically: title, author's name, abstract, keywords, introduction, method, research results and discussion, conclusion, contribution authors, acknowledgement and reference. If necessary, a thank you note and an appendix can be followed. All in all, layered descriptions and enumerations are avoided.

**Abstract:** Written in two languages, Indonesian and English, about 130-160 words each, followed by 3-5 keywords.

**References and Literature:** Writing references in the manuscript using References Manager software, APA model (Name, year, title, page). Writing the bibliography at the end of the manuscript follows general rules and is arranged alphabetically by name. Here are examples from various sources:

Berry, J.W., Y.H. Poortinga, M.H. Segall, & P.R. Dasen. 1996. *Cross Cultural Psychology*. Cambridge University Press, Melbourne.

Dewanto, Wahyu. 1996. "Space and Myth in Surakarta Kasunanan Palace, Indonesia". Makalah pada *International Conference on Traditions and Modernity: Contemporary Architecture in Southeast Asia and Beyond*, 9-11 Desember 1996, Universitas Mercu Buana, Jakarta.

Djoko Kuntjoro. 2001. "Studi Alternatif Penerapan Metode Kualitatif dalam Bidang Arsitektur", *Gema Teknik*, Vol.1/Tahun IV Januari 2001, Fakultas Teknik UNS, Surakarta, pp.19-22.

Katz, Joseph M. 1977. "Religious Beliefs and Traditions – International Business Ethics: Indonesia". <http://www.pitt.edu/~ethics/countries/Indonesia/culture.html>, diakses 5/11/00.

**Completeness of Manuscripts:** The inclusion of tables, figures, and formulas must be selective, chosen which is important, relevant, supports the contents of the manuscript, and is not excessive. They are presented with numbering and title, and must be mentioned in the manuscript. Avoid including raw data in tables or figures; more processed results are expected. Tables and images are no more than the width of the column (7.75 Cm), or the maximum width of the text on the page (16.5 Cm). The presentation of the table simply uses the classic style. To be reproducible, graphics are printed in black and white with sufficient contrast, photocopy quality, laser or jet printer. Photos should be printed on glossy paper. The footnotes are used only when absolutely necessary, and must be short. Likewise, presentation of appendices should be avoided as much as possible. Tables and pictures of the author's analysis, do not need to include sources.

**Author:** Authors are required to include an electronic contact address with affiliated institutions to make it easier for readers to make direct contact.
