AUTHOR GUIDELINES

Manuscript: Manuscript is written in standard Indonesian or English, typed 1 space with Times New Roman 11 font with a total of 10 pages or more (3000-5000 words), A4 size paper (including completeness). Manuscripts in MS Word files with a two-column layout to speed up processing and eliminate errors. Please prepare the manuscript and declaration form then submit online in web https://jurnal.uns.ac.id/Arsitektur. Material and Structure: The research paper is written systematically: title, author's name, abstract, keywords, introduction, method, research results and discussion, conclusion, contribution authors, acknowledgement and reference. If necessary, a thank you note and an appendix can be followed. All in all, layered descriptions and enumerations are avoided.

Abstract: Written in two languages, Indonesian and English, about 130-160 words each, followed by 3-5 keywords.

References and Literature: Writing references in the manuscript using References Manager software, APA model (Name, year, title, page). Writing the bibliography at the end of the manuscript follows general rules and is arranged alphabetically by name. Here are examples from various sources:

Completeness of Manuscripts: The inclusion of tables, figures, and formulas must be selective, chosen which is important, relevant, supports the contents of the manuscript, and is not excessive. They are presented with numbering and title, and must be mentioned in the manuscript. Avoid including raw data in tables or figures; more processed results are expected. Tables and images are no more than the width of the column (7.75 Cm), or the maximum width of the text on the page (16.5 Cm). The presentation of the table simply uses the classic style. To be reproducible, graphics are printed in black and white with sufficient contrast, photocopy quality, laser or jet printer. Photos should be printed on glossy paper. The footnotes are used only when absolutely necessary, and must be short. Likewise, presentation of appendices should be avoided as much as possible. Tables and pictures of the author’s analysis, do not need to include sources.

Author: Authors are required to include an electronic contact address with affiliated institutions to make it easier for readers to make direct contact.
