

## SEMINAR MANAJEMEN BENCANA PSB 2020 (SMBPSB 2020)

Universitas Sebelas Maret, Surakarta, Indonesia  
30 July 2020

### PREFACE

During the last two decades, the occurrence of disasters in the world, including Indonesia, has tended to increase in both the number and intensity of events. Indonesia with a geological location that is located in the ring of fire, geographic location between two oceans and two continents and demographic conditions with a large population and relatively low quality, makes Indonesia as a very high disaster prone area. For this reason, a vehicle for the dissemination of disaster information is needed as well as ideas and ideas for disaster risk reduction.

The Disaster Management Seminar which organized by the Disaster Studies Center, The Research Institute and Community Service, Sebelas Maret University, aims to disseminate the research results, findings, and ideas, especially those related to disaster management. From the various research results, it is hoped that the existing findings and ideas can also be utilized by policy makers for disaster risk reduction in Indonesia. In addition, this seminar activity can also be used by participants to exchange information and establish cooperation in the field of research and community service

For the 2020 Disaster Management Seminar of Disaster Study Center we would like to thank:

1. Rector of Sebelas Maret University, Mr. Prof. Dr. Jamal Wiwoho, SH., M.Hum, who gave permission and facilities and was pleased to open the Seminar
2. Chair of the Research and Community Service Institute, Sebelas Maret University, Prof. Dr. Okid Parama Astirin, MS who has given permission and facilities for this seminar
3. The Keynote Speakers, there are Prof. Dr. Ir. Khrisna S Pribadi and Mr. Dr. Agung Harijoko, S.T., M.Eng, who was willing to share his knowledge
4. Speakers who are willing to share knowledge
5. All committees who have worked hard in the success of the seminar

We apologize if the 2020 PSB Disaster Management Seminar is still lacking. Hopefully the holding of seminars in the coming years can be even better
