

SEMINAR NASIONAL GEOLITERASI DAN PEMBANGUNAN BERKELANJUTAN

Universitas Sebelas Maret, Surakarta, Indonesia
29 Oktober 2022

PREFACE

Buku prosiding ini berisi makalah-makalah terpilih mengenai pendidikan geografi, lingkungan, penginderaan jauh, pembangunan dan perencanaan wilayah, inovasi pembelajaran geografi, geospasial, kebencanaan, kependudukan, sistem informasi geografis, pembangunan berkelanjutan, dan geoliterasi yang telah dipresentasikan pada acara seminar nasional yang diselenggarakan oleh Program Studi Magister (S2) Pendidikan Geografi Universitas Sebelas Maret yang telah dilaksanakan secara daring.

Tema yang diangkat yaitu tentang "Geoliterasi dan Pembangunan Berkelanjutan". Pembangunan Berkelanjutan (*Sustainable Development Goals/SDGs*) merupakan komitmen global dan nasional yang mencakup tiga dimensi pembangunan berkelanjutan, yaitu pertumbuhan ekonomi, inklusi sosial dan perlindungan terhadap lingkungan. Pendidikan yang berkualitas merupakan salah satu tujuan dari agenda pendidikan 2030 untuk mencapai SDGs yang terdiri dari 17 Goals tentang isu-isu keberlanjutan. Sistem Pendidikan membutuhkan gerakan baru untuk merespon era revolusi industri 4.0. Salah satu Gerakan yang dirancang oleh pemerintah adalah Gerakan literasi baru diantaranya, literasi informasi, literasi digital, literasi keuangan dsb, namun literasi geografi tidak tertulis secara eksplisit. Pembelajaran membutuhkan dukungan pengetahuan geografi seperti literasi geografi. Literasi geografi merupakan salah satu literasi yang penting dalam pengembangan keterampilan abad 21. Bagaimana pemikiran ini sangat efektif dalam membantu mereka melihat dunia dengan cara yang berbeda.

Secara khusus, kami juga mengucapkan terima kasih kepada pihak-pihak yang terlibat dalam acara seminar nasional ini sehingga dapat terlaksana dengan baik, terutama kepada:

1. Rektor Universitas Sebelas Maret Surakarta
2. Pembicara dan moderator acara
3. Tim reviewer
4. Panitia Seminar Nasional
5. Para Peserta dan Pemakalah Seminar Nasional.

Akhir kata, kami memohon maaf jika terdapat kekurangan serta hal yang tidak berkenan selama pelaksanaan seminar maupun dalam penerbitan buku prosiding ini.

PREFACE

Indonesia with its geological location which is located in the ring of fire, geographical location which is between two oceans and two continents as well as demographic conditions with a large population and relatively low quality make Indonesia a very high disaster-prone area. For this reason, a vehicle for dissemination of disaster information and disaster risk reduction ideas is needed. This year, the theme raised is "Membangun Ketangguhan Komunitas Melalui Pendidikan Kebencanaan". with the aim of explaining community-based disaster risk reduction, both in the community and education spheres.

The Seminar on Disaster Management organized by the Center for Disaster Studies, Institute for Research and Community Service at Sebelas Maret University aims to disseminate research results, findings and ideas, especially those relating to disaster management. From the results of this study, it is hoped that the existing findings and ideas can also be utilized by policy makers for disaster risk reduction in Indonesia. In addition, this seminar activity can also be used by participants to exchange information and establish cooperation in the field of research and community service for the 2022 National Seminar on Disaster Management. The Center for Disaster Studies would like to thank:

1. Rector of Sebelas Maret University, Mr. Prof. Dr. Jamal Wiwoho, SH., M.Hum, who gave permission and facilities and was pleased to open the Seminar
2. Chair of the Research and Community Service Institute, Sebelas Maret University, Prof. Dr. Okid Parama Astirin, MS who has given permission and facilities for this seminar
3. Speakers who are willing to share knowledge
4. All committees who have worked hard in the success of the seminar

We apologize if the 2020 PSB Disaster Management Seminar is still lacking. Hopefully the holding of seminars in the coming years can be even better.

Surakarta, December 2022
