

## PREFACE

Dear readers,

Welcome to *ALCHEMY: Jurnal Penelitian Kimia*, a peer-reviewed and open-access journal dedicated to advancing the frontiers of fundamental and applied chemistry and promoting rigorous scientific inquiry. This journal serves as a dynamic platform for researchers, scholars, and practitioners from across the globe to disseminate their original research findings, theoretical insights, and experimental discoveries in various subdisciplines of chemistry. In a world where chemistry plays an essential role in addressing complex global challenges, our role is to foster a collaborative and multidisciplinary environment where chemists are able to transform into innovative solutions.

*ALCHEMY: Jurnal Penelitian Kimia* provides scientific knowledge for the exchange of ideas and the dissemination of chemistry across diverse fields, including organic, inorganic, analytical, physical, environmental, and computational chemistry. Our journal welcomes submissions that span the full spectrum of scientific inquiry, from theoretical to experimental studies that deliver practical applications with real-world impact.

We serve to publish *ALCHEMY: Jurnal Penelitian Kimia* twice a year, in March and September, offering a regular platform for researchers to share their latest findings and engage in meaningful discourse. Our peer-review process, conducted by experts in their respective fields, ensures the highest quality of published work, making this journal a trusted source of cutting-edge research. We appreciate and acknowledge all authors for contributing to this current edition of *ALCHEMY: Jurnal Penelitian Kimia*, September Vol 19(2) 2023.

Surakarta, September 30, 2023
