PREFACE

Praise to Allah the Almighty God for all the grace and guidance that has been given to all of us, so the 2nd International Conference of Art, Language and Culture hosted by master program of Art Education, postgraduate of Sebelas Maret University, Surakarta on Saturday, November 4th, 2017 at Sahid Jaya Hotel Solo beginning from preparation until the implementation will hopefully be successfully conducted.

The purpose of this conference serves as a medium of academic communication for writers both graduate students and lecturers as researchers. In this activity, the authors present the insightful thoughts and study results discussed all together in the forum. Output activities will be presented in the form of numbered proceedings ISBN 978-602-50576-0-1 and online proceeding accessible in the website *jurnal.uns.ac.id* (indexed in some journal indexer).

Current conference under the theme “The Improvement of Sosial-Cultural Community Life Through Contextual Art Education” which then elaborated to various subthemes among others: Education, Art Education, Social Culture, Language, and Cross Discipline in Art.

Based on the sub-theme, the conference participants comprising of various non-science disciplines from various countries of origin, among others: Spain, Nigeria, Japan, Malaysia and some other leading universities in Indonesia: UGM, ITB, UNPAD, UNS, UDAYANA, Universitas Jember, UNNES, UNESA, UPI, ISI Surakarta, Universitas Manokwari Papua, Universitas Maritim Raja Ali Haji Pekanbaru Riau, Universitas Mataram Nusa Tenggara, and other universities STIMIK STIKOM Indonesia Denpasar Bali, Universitas Ciputra Surabaya, Sekolah Tinggi Kesenian Wilwatikta Surabaya, Universitas PGRI Kediri Jatim, Universitas Widya Dharma Klaten Jateng, STKIP Yapis Dompus Nusa Tenggara, Universitas Bangun Nusantara Sukoharjo Jateng.

Art studies are not only monopolized by artists, but art can be studied from different angles and perspectives. Art / art education is expanding widely in society. In human life, art can be present and needed by human regardless of one's social status, age, or gender. It can be interpreted if art is identical with the beauty. Art as a product of beauty, we literally need to borrow the Herbert Read's opinion that art is equated with the term aesthetics which means beauty. Even the beauty of art has long been used by Baumgarten (1762) a German philosopher up to the present day.

Everyone would love beauty, one's sensitivity must be different. Moreover, that "Allah Almighty is the most and loves beauty ". Allah is pleased to see His or Her servants who always remember the blessings bestowed on them. Everyone would love beauty, though each sensitivity towards the beauty must be different. Moreover, that "Allah Almighty is the Most beautiful and loves beauty ". God is pleased to see His servants who always remember the blessings bestowed on them: “*innallaha jamilun yuhibbul jamal*”.

For that reason, this conference seeks to provide an answer in which the art or art education has a close relationship with other disciplines such as in the use of language

both in school and community learning, social sciences and humanities, and other interrelated sciences .

On this occasion, we would like to express our countless credits to:

The Rector and Director of Postgraduate Sebelas Maret University of Surakarta;

The first presenter:

All the presenters and professionals on their own subject areas, participants and the committees;

The Hotel Sahid Jaya Solo and SoloPos (all the jointly membership who have helped us to make it happens).

The last but not least, this conference may still leave a lot of lackness and disappointment to all the audiences, I hope that you can all forgive us.

May you gain something useful from this conference, God bless us all, aamiin.

Mr. Edy Tri Sulistyono
