## PREFACE

Praise be unto Allah the Almighty God for all the grace and guidance that has been given to all of us. As the Chairperson and on behalf of the organizing committee, I am delighted to welcome you all to the 3<sup>rd</sup> International Conference of Art, Language and Culture hosted by master program of Art Education, and Culture Studies Postgraduate of Universitas Sebelas Maret, Surakarta on Saturday, September 29<sup>th</sup>, 2018 at UNS Inn of Surakarta beginning from preparation until the implementation of this conference will hopefully be running successfully. And welcome back to all of you who once have ever attended the previous conference on ICALC 2017.

The purpose of this conference was to serve as a medium of academic communication for writers both graduate students and lecturers as researchers. In this activity, the authors present the insightful thoughts and study results discussed all together in the forum. Output activities will be presented in the selected paper published online by ATLANTIS PRESS Indexed by CPCI Clarivate Analytics (previously known as Thomson Reuters) and the online regular proceeding accessible in the website [jurnal.uns.ac.id](http://jurnal.uns.ac.id). with E-ISSN.

Current conference under the theme “The Improvement of Social-Cultural Community Life Through Contextual Art Education” which then elaborated to various subthemes among others: Education, Art Education, Social Culture, Language, and Cross Discipline in Art.

Based on such sub-theme, the conference participants comprising of various non-science disciplines from various countries of origin, among others: Spain, Britain, Nigeria, Japan, Malaysia and some other leading universities in Indonesia: ITB, UNPAD, UNS, UDAYANA, UM, Universitas Jember, UNNES, UNESA, UKI, UNINDRA, ISI Surakarta, UNJ, Universitas Muhammadiyah Puworejo, UMP Purwokerto, UNY, UINSU, Universitas Bangun Nusantara Sukoharjo Central Java, and many others.

Art studies are not only monopolized by artists, but art can be studied from different angles and perspectives. Art education is expanding widely in society. In human life, art can be present and needed by human regardless of one’s social status, age, or gender. It can be interpreted if art is identical with the beauty. Art as a product of beauty, we literally need to borrow the Herbert Read’s opinion that art is equal to a term ‘aesthetics’ which means beauty. Even the beauty of art has long been used by Baumgarten (1762) a German philosopher up to the present day.

Everyone would love beauty; one’s sensitivity must be different. Moreover, that "Allah Almighty is the most and loves beauty ". Allah is pleased to see His or Her servants who always remember the blessings bestowed on them. Everyone would love beauty, though each sensitivity towards the beauty must be different. Moreover, that "Allah Almighty is the Most beautiful and loves beauty ". God is pleased to see His servants who always remember the blessings bestowed on them: “*innallaha jambilun yuhibbul jamal*”.

For that reason, this conference seeks to provide an answer in which the art or art education has a close relationship with other disciplines such as in the use of language both in school and community learning, social sciences and humanities, and other interrelated sciences.

Such is the preface that we wish to deliver as the committee. In this activity, we believe there are still many shortcomings in providing services to all parties and also the words of

love we cannot mention one by one. However, may Allah always give merit and abundance of kindness to all those who have helped the implementation of this activity. Finally, the lack of it, please forgive. All constructive criticisms and suggestions are always waiting for us to improve and improve our services in the future.

Surakarta, September 29<sup>th</sup>, 2018

The Chairperson

Dr. Edy Tri Sulisty M.Pd
