DISKUSI

Maria Ulfah

Pertanyaan:

Dari tiga aspek *fluency*, *flexibility*, dan *novelty* pada kemampuan berpikir kreatif, apakah jika salah satu aspek tidak ada akan mempengaruhi kemampuan berpikir kreatifnya?

Jawaban:

Tiga aspek *fluency*, *flexibility*, dan *novelty* tersebut sudah merupakan ketetapan yang ditemukan oleh *Torrance Test* yaitu *The Torrance Test of Creative Thinking (TTCT)*, sehingga jika salah satu aspek tidak ada maka kemampuan berpikir kreatif mahasiswa dalam penyelesaian masalah juga tidak dapat diketahui. Misalnya kemampuan *flexibility*nya tidak ada maka gagasan yang dianggap *novelty* juga tidak dapat diketahui. Jadi, tiga aspek tersebut pasti ada, tidak mungkin tidak ada yang ada hanya rendah atau kurang.
