DARWIN

How to deal with it?

"It is not the strongest of the species that survive, nor the most intelligent, but the one most responsive to change"
- Charles Darwin

Learning as a social activity, as an engine of creativity and innovation, and productivity in society, **is going to be exploding in the foreseeable future**. And it is also going to present many **possible alternatives** for leadership and for the development of new and powerful modes of learning.

(Richard Elmore, Professor of Educational Leadership at the Harvard Graduate School of Education)

Transformasi Pembelajaran

- 1 The sources of learning are everywhere.** Lebih fleksibel dalam mengakses berbagai sumber pengetahuan yang dapat ditemui melalui sarana digital.
- 2 Teachers are everywhere.** Siswa dapat belajar dari guru, pakar, praktisi, bahkan AI.
- 3 Learning is going to become much more individualized and personalized.** Siswa memasuki situasi belajar dengan latar belakang pengetahuan, pengalaman, minat, dan motivasi yang berbeda. Pembelajaran akan dipersonalisasi di mana siswa memiliki lebih banyak peluang untuk mempelajari apa yang diminati.
- 4 Networks are the new classroom.** Ruang kelas dapat terjadi di dalam masyarakat. Pembelajaran akan membentuk jaringan masyarakat dengan minat yang sama. Artinya, siswa dapat belajar dengan mereka yang memiliki kesamaan minat, motivasi, dan kepentingan bersama.
- 5 Learning will occur everywhere.** Belajar dapat dilakukan di mana saja.

Love Your Enemy

“Throw us in jail and we shall still love you... Beat us and leave us half dead, and we shall still love you. But be ye assured that we will wear you down by our capacity to suffer. One day we shall win freedom, but not only for ourselves. We shall so appeal to your heart and conscience that we shall win you in the process, and our victory will be a multy victory.”
